This very easy and user friendly software allows you to easily compose, manage and send individual and bulk SMS campaigns.

It allows you to send generic and customized SMS messages to contacts that are listed in a CSV or

Excel input file or even phonebooks that you can create using our system. Compsight Bulk SMS System can serve for mass delivery of holiday greetings, credit collection, sales and as an efficient marketing tool and more.

Sending SMS from a customized name like “**COMPSIGHT**” also increases customer confidence and also greatly contributes to branding your service or business

WEB DESIGN And DEVELOPMENT

GRAPHIC DESIGN

What you fail to communicate with words, we communicate with design that is smart and creatives

Professional graphic designs are very important for any business seeking to establish

as well as maintain a positive corporate image and be successful. They help a business by increasing brand recognition and company unity, bringing in professionalism, communicating well, increasing productivity and efficiency, and escalate sales and

revenue.

As a top visual design company, everything we do has a single, unifying goal: To set your business apart from the competition. Our Business is Making Your Business Look Good.

Software Installation

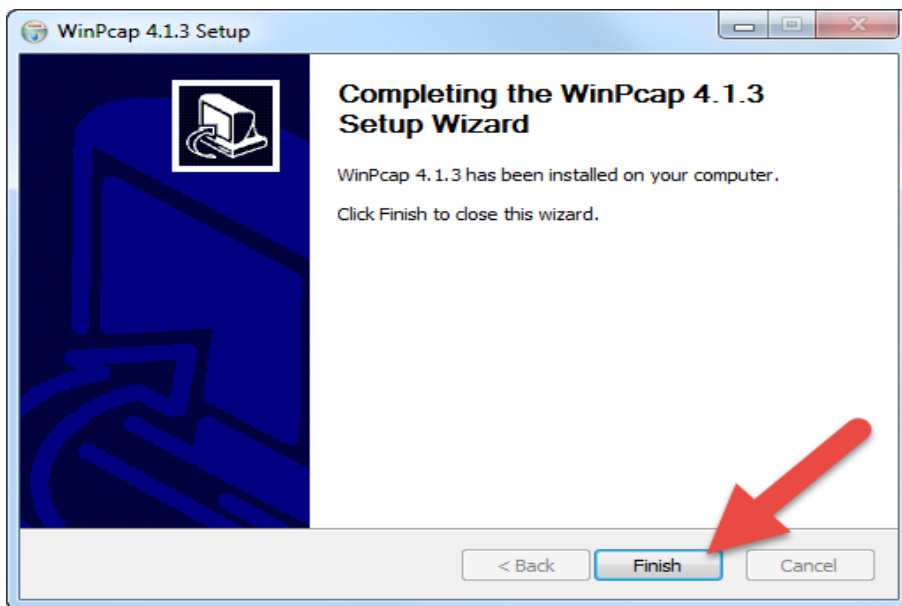

SOFTWARE INSTALLATION AND SUPPORT

We not only undertake hardware repairs, we also offer full software support. We can re-install your operating system, remove old programmes and help find out why your

computer is crashing or your laptop is running slowly.

We provide a virus removal and spyware removal service and install the latest Anti-virus software for complete online security. We can also update and repair Windows operating systems and Apple Operating systems (Mac OS X) and speed up slow internet connections or WiFi network

connections.

Some software is relatively easy to set up. Some, however, can be quite complicated to install and setup.
